I'M BLU

Pivoting back to tech after a successful career in the music industry. I'm a unique mix of an experienced touring music professional with a foundation in web development both in big corporate and small startups of the 90s tech boom. Strong arts and design professional. Ready for what's next.

TECHNICAL SKILLS

HTML | CSS | Javascript | React | Python | Django | PHP | ASP | Visual Basic | SQL Server | MySQL | Mastertour | Photoshop | Lightroom | Logic | Pro Tools

TECHNICAL EDUCATION

Nashville Software School
Six month intensive, full-time software development bootcamp focusing on HTML, CSS, Javascript, React, and server-side fundamentals with Python and Django.

- JavaScript (ES6) and React to create single-page dynamic web applications using full CRUD functionality
- Project management with issue tickets and GitHub Projects
- Database planning by building entity relationship diagrams (ERDs)
- Styled applications using CSS, Bootstrap
- Group project sprints while fully remote. Slack, Zoom, GitHub Projects, and wireframes for group communication and collaboration

University of Texas at Austin
Management Information Systems

PROJECTS

Per Diemz
HTML/CSS/Javascript/React/JSON

View Code

Per Diems was designed to be a simple music tour management app to manage a road crew and per diem while calculating bill denominations before a tour run.
